1 B O O K S Many , many years ago a town
crier ran through the streets and
shouted out all the news . But now we
live in the Atomic Age . Too many
things happen too quickly for us to
learn about them in the old-fashioned way . That is
why we have to read more and more in order to find out what is happening
in the world . Reading is rarely a waste of time . Have you ever thought
about the kind of books people used long ago ? It is only in the last 500
years that books have been printed on paper . Before that time the only
way of making books was to write them out by hand . No one knows when
writing first began ,
